IZHAR

CONCRETE (PVT.) LTD.
PRE-CAST / PRE-STRESSED PRODUCTS

INTRODUCTION

IZHAR CONCRETE

A TALE OF TIMELESS COMMITMENT TO EXCELLENCE

The journey began with a humble manufacturing set up of precast concrete components in 1965 by Engr. Izhar Ahmed Qureshi. The dream was unique but big; however, the determination to pursue the dream and become a pioneer role model in the field was bigger and stronger. Yes, it was big, strong and solid just like the concrete products that were to be launched as pioneers paving the way for a new industry in Pakistan.

Under the dynamic leadership of its resolute founder, late Izhar Ahmed Qureshi, the company began its uphill journey in a domain which was till then untrodden; but with the help and blessings of the Almighty along with an untiring will to excel and be the very best, Izhar Concrete kept on inching forward slowly yet steadily.

Izhar Concrete Pvt. Ltd. is the parent member of Izhar Group of Companies which is the pioneer and the largest single entity engaged in manufacturing of pre-cast and pre-stressed concrete components to all construction sectors including Industrial, Civil Engineering and Agricultural projects across Pakistan. Izhar's Pre-cast division offers a wide variety of components including pavers, kerb stones, Double Tee Slabs, Smooth Face Slabs, Girders, Transoms and Hollow Core Slabs of high quality conforming to international standards.

Starting off with basic construction components and systems, the company moved on to indigenize and develop the technology of pre-casting and pre-stressed concrete elements in order to meet the local requirements and conditions in the best possible manner.

Here at Izhar Concrete, pre-cast concrete products are manufactured as such as to meet the due requirements of the respective project, designed by our in-house team or working from construction drawings supplied. We offer standard as well as bespoke pre-cast concrete products manufactured by our highly skilled team supported by a fully equipped joinery mold manufacturing workshop. Working in a controlled environment we manufacture a wide variety of concrete products to a high degree of accuracy and quality of finish.

Having served the construction industry for over sixty years we have a wealth of experience which assists us in our continued success. With a pledge to offer quality products, adept services, and a competitive approach to make a difference, Izhar Concrete Pvt. Ltd. stands committed to serve with excellence generations after generations.

FOUNDER OF THE GROUP
ENGR. LATE IZHAR AHMED QURESHI
B.SC. CIVIL ENGINEERING (HONS)

MISSION STATEMENT

We, at Izhar Concrete, aspire to provide superior quality, cost effective and aesthetically premium concrete solutions that are design efficient and at par with diverse requirements of our wide-ranging clientele.

OUR CORE VALUES DEFINE US

Izhar Concrete determinedly upholds integrity, professionalism and a commitment to excellence; for we firmly believe these core values define the very essence of our company.

IZHAR PRE-CAST

CONCRETE PRODUCTS

Quality Products for Solid Structures

IZHAR CONCRETE PRODUCT LINE

SOLID IN FORM, SOLID IN ESSENCE!

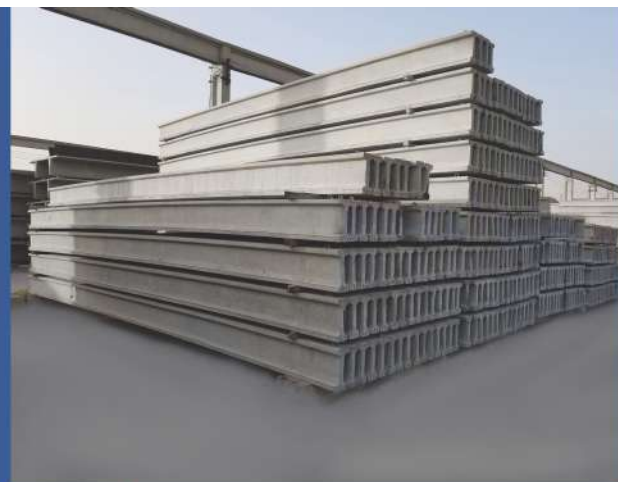

- ROOFS
- BOUNDARY WALLS
- PAVERS AND KERBSTONES/BLOCKS

ROOFS

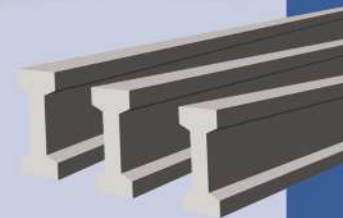

Being the pioneers in the roof manufacturing industry, Izhar Concrete continues to lead the way even after half a century down the road. We offer three different roof options, namely T T Roofs, Hollow Core Roof and Girder Slab Roof. However, they all distinctively share the supreme quality that is the benchmark of Izhar Concrete.

GIRDER SLAB ROOF

Essentially Distinctive Features

- Construction time is substantially reduced
- Different range of sizes for various spans
- Simple & rapid installation
- Cost effective

APPLICATIONS

T T ROOFS

Essential Features

- Fast in construction
- Economical roofing system
- Best suited for large spans
- Modular construction
- Much economical

APPLICATIONS

RIPHAH COLLEGE OF VETERINARY SCIENCES

COCA COLA HEAD OFFICE LAHORE

HOLLOW CORE ROOFS

Essentially Distinctive Features

- Rapid installation
- Fire resistant
- Cost effective
- Heat insulation
- Smooth finished surface
- Soundproofing
- Structural soundness
- Modular construction

APPLICATIONS

BOUNDARY WALLS

Solid and sturdy yet aesthetically pleasing, our boundary wall options markedly surpass our contemporaries in pre-stressed and pre-cast concrete products.

Essentially Distinctive Features

- Fast in construction
- Modular construction
- Inherent strength
- Reliability and robustness
- Placing and compaction
- High quality moulded finish
- Cost effective bespoke solutions
- Neat & consistent overall appearance

APPLICATIONS

Schools & Universities Parks Housing Societies Agricultural Land Warehouses & Godowns

PAVERS AND KERBSTONES/BLOCKS

These trendy and durable interlocking blocks are the rage in modern times, used both for functional and decorative purposes. Izhar Concrete pre-stressed pavers and blocks stand out remarkably for a number of reasons; their unmatched quality and a wide variety of designs top the list.

Essentially Distinctive Features

- High strength & long life
- Skid resistance
- Resistance to acid & petroleum products
- No curing period, use as soon as laid
- High quality finish
- Cost effective
- Neat & consistent overall appearance
